

INITIAL SETUP

## IN THIS VIDEO YOU WILL LEARN TO:

- Setup the device
- License your system
- Setup wireless connection

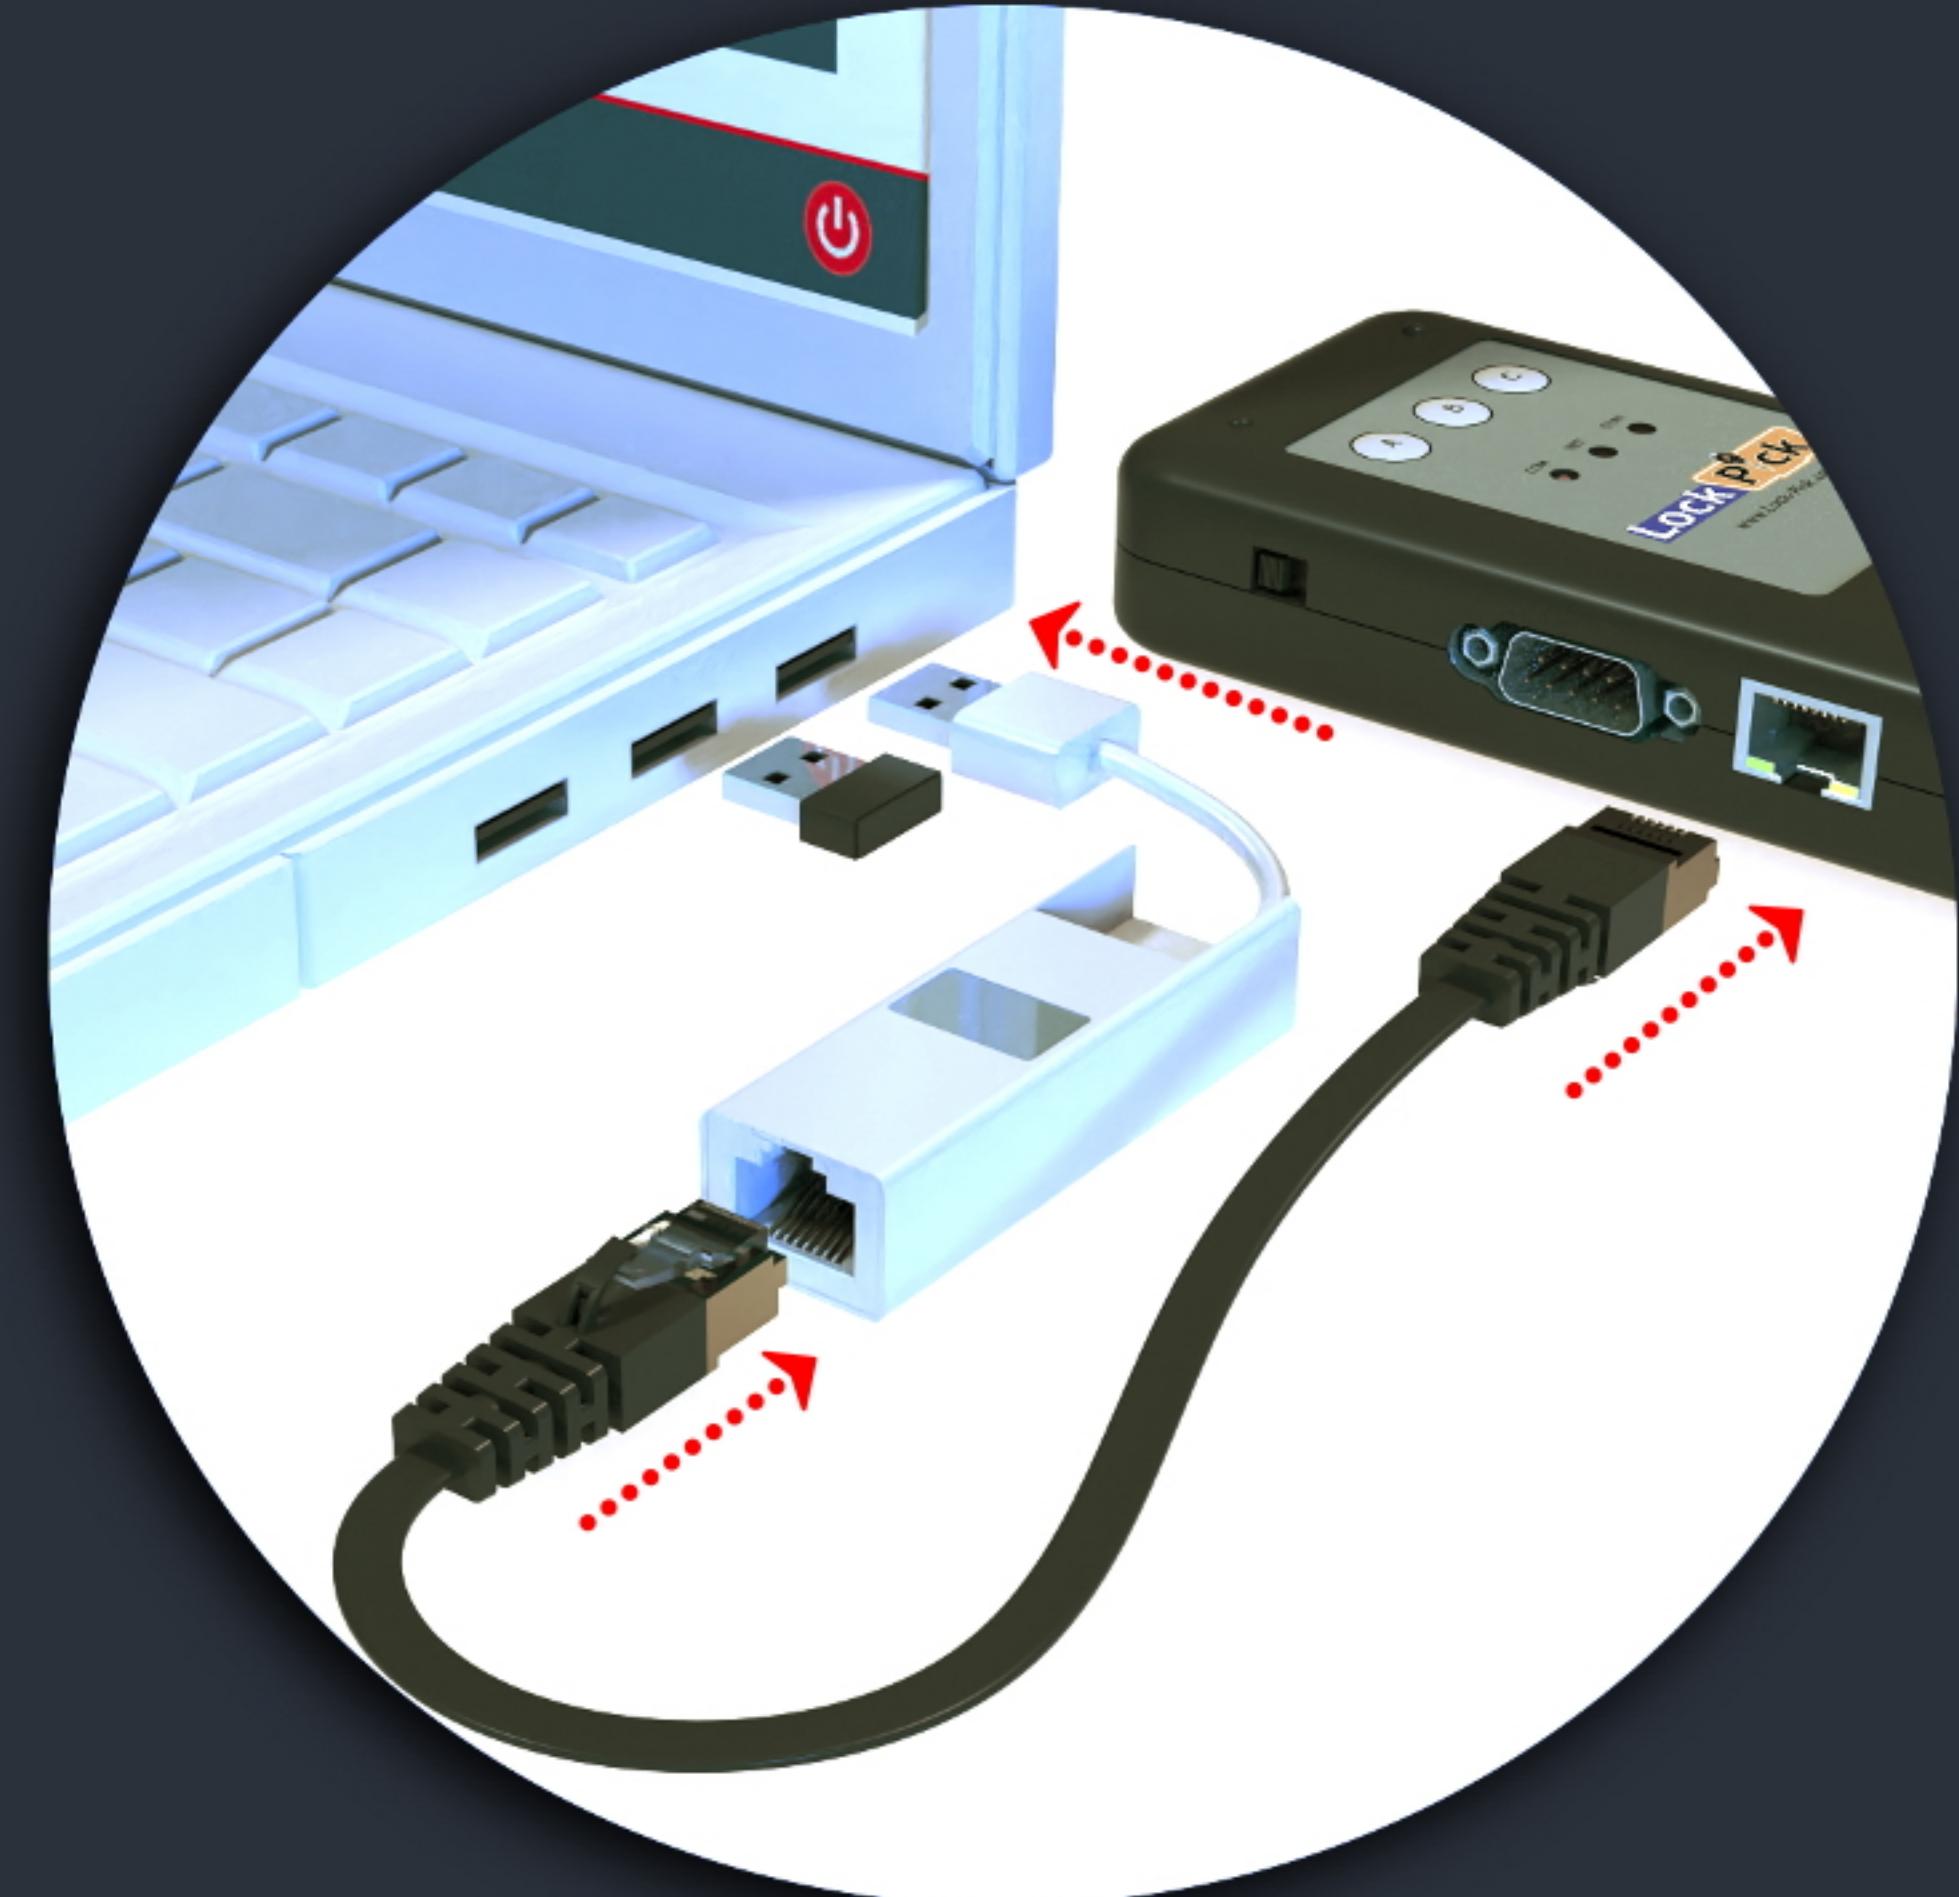

# STEP 1

- Connect the **USB Wireless Adapter** to the laptop
- Connect the **Main Interface** to laptop using the **LAN cable**

# STEP 1

- Connect the **USB Wireless Adapter** to the laptop
  - Connect the **Main Interface** to laptop using the **LAN cable**
- If your laptop does not have an available Ethernet port, please use the **USB to Ethernet Adapter** provided in your kit

## STEP 2

Click on the **Lock Pick Tool** icon on your desktop

[FEM/BDC](#)[DME ISN](#)[CAS1~4](#)[M35XX](#)[FRM](#)[KEY Refresh](#)[EGS refresh](#)[ECU Clone](#)

*Sub items available  
Executable function*

## \* BMW Programming

Please wait while the system prepares the network
